

Interreg Europe 2021-2027***Partner Search Form for Polish institutions***

Interreg Europe programme invites public authorities and institutions as well as relevant private non-profit bodies with legal personality from UE-27, Norway and Switzerland. [Information on the programme](#). [Information on the programme in Polish](#).

The Partner Search Form is an additional support measure for the Polish institutions, complementing the online tool offered by the Interreg Europe 2021-2027 programme. We strongly recommend using both instruments. Before sending this Form, please check '[Meet the community](#)'. Maybe your future partners are already waiting for you there!

An important note

Before filling in this Form please read [The application pack](#).

If you have questions, you may contact the Interreg Europe National Point of Contact in the Ministry of Development Funds and Regional Policy (Anna Stol, 22 273 81 76, IE@mfipr.gov.pl).

PART 2: Proposed scope of cooperation

2.1 Only for public institutions - I want to be a lead partner

	<u>Information for potential partners</u>
a) Description of my project idea	<p>The main problem identified is insufficient process of public consultation regarding the issues of flood prevention. On one hand citizens are not sufficiently involved in consultation, on the other hand public entities use limited number of tools for organizing the consultation process. This may lead to lack of understanding between citizens and public authorities and rejection of proposals prepared by public bodies for the purpose of flood prevention.</p> <p>Thus, the main aim of the project is to build a new, participatory decision-making process for preparing river valley spaces for climate change manifested in periodic water surplus or deficit.</p> <p>It will utilize partners' potential and advanced technologies in the field of habitat</p>

	<p>studies, ecophysiological studies, determination of water chemistry, etc.</p> <p>Recommendations for decision makers will be the result of joint work of representatives of society, institutions and organizations. Conclusions included in the final project document will promote activities in the field of flood disaster risk reduction and mitigation of climate change consequences through the use of natural retention.</p>
<p>b) The idea fits to the Policy Objective</p>	<p>2. Greener Europe</p>
<p>c) The idea fits to the Specific Objective</p>	<p>(iv) Climate change adaptation, disaster risk prevention, resilience (vii) Protection and preservation of nature and biodiversity, green infrastructures, pollution reduction</p>
<p>d) We would like to focus on the following policy instrument</p> <p>Please remember that the thematic scope of the policy instrument (or a part of it) must be thematically adequate to the project's subject.</p> <p><u>Examples of policy instruments:</u> low carbon economy plan, development strategy, regional innovation strategy, plan/strategy related to e.g. tourism or other issues, regional operational programme, national operational programme, local law, integrated territorial investments, community-led local development etc.</p>	<p><i>Drought Management Plan for River Basin Districts 2021-2027</i></p> <p>The policy instrument is of national level.</p>
<p>e) This policy instrument is 'Investment for Jobs and Growth' programme</p> <p>It is either regional or national operational programme 2021-2027, implemented in Poland by Polish Managing Authority, i.e. Marshal Office on regional level, and</p>	

Ministry of Development Funds and Regional Policy on national level.	
<p>f) We <u>are</u> responsible for this policy instrument</p> <p>Please describe whether your institution is in charge of development and/or implementation of the selected policy instrument, is acting as Managing Authority of regional programme etc.</p> <p>If not: confirm that the policy responsible authority will be involved in the project. Indicate the name of this institution.</p>	<p>we <u>are not</u> responsible for this policy instrument</p> <p>I confirm that the policy responsible authority, State Water Holding Polish Waters (it is the main entity responsible for national water management in Poland), will be involved in the project.</p>
