## Greening Apprenticeships in the HORECA industry

ENVIRECA creates a strategic partnership across 6 EU countries to improve the environmental skills of vocation education training (VET) Apprentices in the HORECA (hotels, restaurants, cafes) industry thanks to work-based learning (WBL) tools.

## PARTNERS

## PROJECT OBJECTIVES

### *Long – term impacts of ENVIRECA*

1. Design a comprehensive and up-to-date WBL curriculum and training content on environmentally sustainable work practices, to be embedded in HORECA VET provision.
2. Introduce modern training delivery methods that will enable HORECA apprentices to apply the acquired knowledge and skills in real workplace situation and promote green - skills development.
3. Enhance the VET-business cooperation and facilitate the integration of environmental components into HORECA WBL curricula and certification / standardisation schemes

## TARGET GROUPS

### *Who will benefit from the project?*

1. VET providers
2. HORECA employers
3. Apprentices aspiring to get employed in the HORECA industry
4. Sector representatives and associations
5. VET authorities & career guidance bodies

## MAIN OUTPUTS

### *What project will return*

#### O1 | HORECA work – based learning outcomes

Comprehensive research on what HORECA apprentices should know to reduce environmental impacts of their activity

#### O2 | ENVIRECA curriculum outline and Open Educational Resources

Designed for VET providers to train HORECA apprentices on environmental sustainable practices.

#### O3 | ENVIRECA Simulation game

Interactive scenarios that will help apprentices acquire new skills and assess environmental performance.

#### O4 | Framework for the integration of environmental components into HORECA WBL curricula and certification & standardisation

Pave the way for Policy Makers to integrate environmental skills in the HORECA sector as occupational standards.

#### E1 – E5 | ENVIRECA information Days
